

# Construction Profile

## Hungerford Emergency and Medical Care at Winsted Health Center

O,R&L Construction Corp., founded in 1990, is headquartered in Branford, Connecticut. The company offers commercial construction services including Construction Management, Design Build and Construction Consulting. We are experienced in all aspects of new construction, integrated design development, sensitive occupied renovations, high performance fit-outs, alternate energy installations and exterior rehabilitation. Our clients include healthcare, laboratory, corporate, education, industrial and community non-profit.

O,R&L is a proud innovator of sustainable construction in Connecticut with energy incentive collaboration, alternate energy installation projects, LEED project certification experience, construction waste recycling programs and high performance pre-construction estimating. We promote sustainable building strategies through example and support of the local chapter of the United States Green Building Council.

O,R&L Construction provides excellent communication methods and maintains strong relationships with all members of the project team. Our staff of professional project managers, estimators, schedulers, project engineers, architects, site superintendents, safety engineers as well as a full complement of financial and administrative staff is responsive and committed to fulfilling the client's needs and goals.

The company's founder and President, F. Todd Renz, has over twenty four-years experience in commercial construction. His philosophy of forging a partnership with each and every client has been passed down to all O,R&L employees resulting in a dedicated and caring staff whose ideal is to provide high quality construction services while building long lasting relationships.
